Commissioners Also Authorize Equipment of Apothecary to Save Drug Bills.

TREATS COUNTY PATIENTS

Cures For County Patients—Action Deemed Necessary Although Law Does Not Provide For Position.

Dr. J. P. Capps, recently appointed county physician, has proposed to the commissioners a plan by which the position of county physician at the meeting of the Tulsa county board of commissioners Monday at a salary of \$175 a month. The motion was made by the commissioners after the bids of four physicians for this service were received and considered.

While there is no office designated in regulation that of county physician, the commissioners have voted to make a contract with Dr. Capps in which the physician agrees to tend to all county patients. This contract was made necessary from the fact that without such an agreement the poor of the county, and many dependents are often deprived of medical attention. The county physician will execute a bond in the sum of his monthly salary to guarantee performance of his services.

The commissioners also decided that a stock of the commonly used drugs should be purchased and placed in the custody of the county humane agents' office, agree to which the county physician will have at all times. By this procedure the commissioners believe the county can make a great saving since the commonly used drugs and medicines may be purchased in wholesale and administered by the county physician. The commissioners were of the opinion that as saving in this matter would be to the benefit of county patients and insure more prompt treatment of any cases in the care of the county physician.

The county physician will file with his salary warrant each month a statement of the amount of drugs in stock, the amount used and make recommendation for any additional drugs or remedies.

This road was to Rose Hill Cemetery and presented by the C. & H. Construction company, and will be the first section of roadway in Tulsa county to be hard surfaced. CHILD IS CONTENTION IN DIVORCE PETITION

Maples, the plaintiff asking custody of the child and temporary alimony pending the hearing of the case.

Mr. Maples claims that on January 15 she allowed her husband to take their child, Eula Maples to Royston, with the understanding that the mother should have the custody of the child at any time. She states that Maples has refused to return the child to the mother.

PERSHING'S POWERS ARE FULLY RESTORED

Regulations Limiting Commander's Court-Martial Authority Revoked by War Department.

OBJECTIONS ARE SUSTAINED

U. S. Leader Claimed He Was Discriminated Against in Rule Laid Down by Acting Judge Advocate.

WASHINGTON, April 7.—Regulations limiting General Pershing's authority over court-martial proceedings abroad to which the general object has been revoked. An amendment to general order No. 84 of 1917, published today by the war department shows that the language making mandatory on the commander recommendations of the acting judge advocate general in France that sentences be set aside, dismissed or modified, has been stricken out.

The order as amended has passed a part in the military justice controversy. After providing for the establishment of a branch office in Paris of the judge advocate general office, where all court-martial cases arising abroad should be reviewed, it contains this provision, drawn up during the incumbency of General T. A. Ansell as acting judge advocate general:

"Any member, or any part thereof, as found to be illegal, defective or void in whole or in part, shall be disapproved, ratified or set aside in accordance with the recommendations of the acting judge advocate general."

General Pershing protested to the war department that this language took out of his hands control of the disciplinary system of the army abroad, and lodged final authority in the hands of the acting judge advocate general. It was pointed out also that the legislation applied only to the American expeditionary force and not to department or division commanders in the United States who retained their freedom of action as to court-martial sentences and were not required to approve the recommendations of any other officer or official.

I then took Foleys Honey and Tar Compound, feeling relief from the first. I used seven small bottles. It was a sight to see the phlegm I coughed up. I am convinced Foleys Honey and Tar saved me from influenza." Checks, coughs, colds, croup and whooping cough—Adv.
